

Certificate

Partner in Climate Protection

Confirmation

The CO₂ saving for the writing
instrument Reco > 65 %

We hereby confirm the calculation of the CO₂ emissions of the product Reco to **Schneider Schreibgeräte GmbH**. Both, the emissions of a pen made with new plastic, as well as with recycled plastic, were examined. The investigation has shown the following:

- Due to the use of recycled plastic in comparison to conventional plastic, the plastic barrel parts of the Reco save > 65 % of CO₂ emissions.
